

# Adnan Manuel Türken Seguin

## Senior Full Stack Developer

Pl. Pilar Bosch Monforte 5, P07 046 Valencia 46014 • [adnanturken@gmail.com](mailto:adnanturken@gmail.com) • (634) 86-9999 • <https://turken.xyz>

Senior Full-stack Developer with 15+ years of experience delivering robust, high-quality solutions in security, logistics, finance and healthcare using diverse technology stacks.

## Professional Experience

### Senior Software Developer

[Transform Credit](#), USA, Remote, Contract

July 2024 – Present

ASP.NET, C#, .NET, AZURE, ANGULAR, CI/CD, AZURE SQL

- Designed and maintained core lending systems on .NET, ASP.NET, Angular, and Azure (SQL, Functions, Web Apps, Logic Apps, Web Jobs, Containers), improving scalability and reliability across high-volume workflows.
- Automated extraction of facial snapshots from archived video calls and matched them with Veriff identity data; delivered an agent UI for side-by-side comparison, increasing verification accuracy and shortening payout cycle time.
- Integrated Veriff, Seon, and People Data Labs to streamline identity verification and fraud checks, improving payout speed and the reliability of fraud detection.
- Migrated services to Linux containers on Azure, streamlining deployments, accelerating releases, and lowering infrastructure costs through more efficient resource usage.

### Senior Full Stack Developer

[Cleverbit Software](#), Malta, Remote, Contract

Jun 2022 – Jul 2024

ASP.NET, AZURE, REACT, C#, .NET

- Modernized GWII's logistics platform on Azure with .NET and React; contributed features across Order and Quote modules to improve reliability, usability, and delivery throughput.
- Authored comprehensive documentation for the Quotes module (legacy vs. modernized), enabling smoother cross-team upgrades and knowledge transfer.
- Partnered across squads to uplift scalability and fault tolerance in core services, reducing operational friction and clarifying ownership boundaries.

### Senior Software Developer

[The Richmond Group](#), UK, Remote, Contract

Nov 2018 – Jun 2022

ASP.NET, C#, .NET, AZURE, ANGULAR, CI/CD, AZURE SQL

- Modernized a multi-country lending platform using Azure, Azure Functions, .NET, and Angular, improving performance, reliability, and user experience at scale.
- Built the company's communications system end-to-end with Azure Functions and Twilio, enabling inbound/outbound email, SMS, and calls; the platform processes ~150K calls monthly and over 1.3M SMS per month with comparable email volumes.
- Designed and implemented a large-scale IVR system in Twilio Studio, enabling customers to self-serve payments, schedule changes, and other requests without agent assistance, significantly reducing support load.

## Senior Software Developer

### [Pronet Security Services](#), TR, Full-time

Oct 2015 – Sep 2018

ASP.NET, NODE.JS, GOLANG, MSSQL, C#, .NET, JAVASCRIPT

- Automated call-center operations with IVR workflows and system integrations, reducing manual handling and agent workload.
- Integrated the in-house alarm platform with Alarm.com, Eagle Eye, and ISNet to support device onboarding and real-time event processing.
- Integrated the sales platform and in-house CRM with Salesforce, Workcube, and other third-party systems, streamlining lead-to-order and support processes.

## Senior Software Developer

### [Comon Professionals](#), TR, Full-time

Jun 2010 – Oct 2015

ASP.NET, MSSQL, C#, .NET, JAVASCRIPT

- Developed A-Guard, a real-time guard-tracking system interfacing with EBS ActiveGuard devices. Created BuluttOlcum, an IoT solution for Türk Telekom that monitors temperature and humidity via EDS sensors.

## Education

### Mustafa Kemal University

Sept. 2006

Computer Programming

## Languages

- English (upper-intermediate)
- Turkish (native) & German (intermediate) & Spanish (beginner)

## Certifications & Professional Training

- Microsoft Certified: Azure Developer Associate, 2026
- Design Patterns in C# and .NET, Udemy, 2020
- T-SQL Query Optimization, Silikon Akademi, 2018
- Object-Oriented Programming Principles & Design Patterns, BT Akademi, 2017
- Software Development Security, BGA, 2017
